

Compliance action taken for childcare provision

Ref: EY561903/4551546

Date: 22 October 2020

Summary of outcome

Her Majesty's Chief Inspector of Education, Children's Services and Skills is leading Ofsted's work into how regulated early years and childcare providers in England have delivered child-centred practice and care, within the context of the restrictions placed on society during the COVID-19 (coronavirus) pandemic.

All early years providers must meet the legal requirements in the [Statutory framework for the early years foundation stage](#). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 15 January 2020, we carried out an inspection and found the provider was not meeting some of these requirements. The overall effectiveness of the provision was judged to be inadequate. We served a welfare requirement notice. This is a legal notice that requires the provider to take action. The inspection report sets out the actions the provider was required to take to meet the requirements.

On 25 September 2020, we carried out a regulatory telephone call. The focus of the visit was to check whether the provider had met the safeguarding and welfare actions, raised at their last inspection.

We found that the provider had taken action by providing further training to improve staffs knowledge and understanding of safeguarding procedures, and improve health and safety arrangements. The provider had also reviewed the complaints procedure and improved arrangements for supervision and support for the staff team. Furthermore, the provider had improved procedures for staff deployment and managing children's behaviour.

We are satisfied the provider has met the safeguarding and welfare actions raised. The provider is still registered with Ofsted.
