

## **Complaint about childcare provision**

Ref: EY426703/4587949

Date: 27 October 2020

## **Summary of outcome**

### **OUTCOME SUMMARY**

Her Majesty's Chief Inspector of Education, Children's Services and Skills is leading Ofsted's work into how regulated early years and childcare providers in England have delivered child-centred practice and care, within the context of the restrictions placed on society during the COVID-19 (coronavirus) pandemic.

All early years providers must meet the legal requirements in the [Statutory framework for the early years foundation stage](#). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 28 September 2020, the provider notified us that there had been a serious accident at the setting. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted. We also received concerns relating to the same matter.

On 15 October 2020, we carried out a regulatory visit. We found that the provider had taken appropriate action to ensure the safety of children and had reviewed and revised procedures and risk assessments. The provider is still registered with Ofsted.

## **Publication of complaints**

We publish details of complaints made against childminders, home childcarers and childcare providers where we or the provider have taken action in order to meet legal requirements.

We publish details of complaints on our website for a period of five years.

For further information about the complaints process please view the [Concerns and complaints about childminders and childcare providers leaflet](#).
