Action For Children

Monitoring visit

Inspected under the social care common inspection framework

Information about this children's home

This children's home is run by a registered charity. The home is registered to provide care and accommodation for 11 children who may have learning disabilities and/or a physical disability. The service is provided in two separate houses. One house provides care and accommodation for up to four children under short-break arrangements and up to two children to live permanently. The other house provides care and accommodation for up to five children to live permanently.

The home's registration is currently subject to a notice of restriction of accommodation. This means that no new admissions and no short breaks are permitted. The children who lived at the home at the time of the notice may continue to live there.

The home has been without a registered manager since January 2020.

Inspection date: 15 December 2020

This monitoring visit

The main purpose of this monitoring visit was to check the home's compliance with the notice restricting accommodation.

This enforcement notice was issued on 26 November 2020 under section 22B of the Care Standards Act. The notice followed the monitoring visit that was completed on 20 November 2020. During that visit, significant shortfalls were identified and 12 requirements were raised.

The notice restricting accommodation is in force until 18 February 2021. Meanwhile, the home and the notice are subject to Ofsted monitoring and review.

The main outcome of this monitoring visit is that the provider is complying with the enforcement notice. The same four children who lived at this home at the time of

the notice being issued have continued to do so. No other children have been admitted. The provider stopped offering short breaks on the day of the notice.

The underlying purpose of the notice is to give the provider the opportunity to focus the home's resources on improving the service for the four children who live permanently at this home.

The provider has acknowledged shortfalls and developed comprehensive improvement plans. These plans are being implemented. The leaders and managers said that the work to improve the service is in progress.

The social workers and a health professional acknowledged the staff's efforts. However, incidents of poor practice and lack of communication are still happening. An example of this is a child missing a hospital appointment.

All 12 requirements that were raised at the previous monitoring visit are restated in this monitoring report.
