On 29 January 2021, we received concerns that the provider was not meeting some of these requirements.

The provider failed to notify us of information that could affect their suitability. This means the provider failed to meet their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of such information. On 3 and 4 February 2021, we discussed the information with the provider. We are satisfied they remain suitable for registration.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
