

Complaint about childcare provision

Ref: EY279384/4776171

Date: 12 May 2021

Summary of outcome

Her Majesty's Chief Inspector of Education, Children's Services and Skills is leading Ofsted's work into how regulated early years and childcare providers in England have delivered child-centred practice and care, within the context of the restrictions placed on society during the COVID-19 (coronavirus) pandemic.

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 27 April 2021, we received concerns that the provider was not meeting some of these requirements.

On 10 May 2021, we carried out a regulatory visit. We found the provider was not meeting some of the requirements and had taken action to put this right. The provider will be able to give parents further information about this.

The provider has reviewed current systems that are in place. Additional measures have now been put in place to record further information and ensure that the individual care needs of babies are consistently met, particularly in relation to feeding, sleep and nappy changes. The provider is monitoring the effectiveness of these changes. The provider is still registered with Ofsted.

Publication of complaints

We publish details of complaints made against childminders, home childcarers and childcare providers where we or the provider have taken action in order to meet legal requirements.

We publish details of complaints on our website for a period of five years.

For further information about the complaints process please view the [Concerns and complaints about childminders and childcare providers leaflet](#).
