Robust policies and risk assessments for the premises are in place. Appropriate checks are carried out to ensure that staff are suitable to work with children.

There were no children present when this inspection took place. The findings in this report are based on evidence gathered from discussions with those who care for the children and an inspection of the premises, equipment and relevant documentation. Where there are no children present, no judgement is made on the quality of the early years provision as there is no reliable evidence on which to assess its impact on children. The report states whether the provider continues to meet the requirements of registration.

### Inspection activities

- This was the first routine inspection the provider received since the COVID-19 (coronavirus) pandemic began. The inspector discussed the impact of the pandemic with the provider and has taken that into account in their evaluation of the provider.
- The inspector met with the provider to talk about the suitability of the premises, how the club is organised and to check that all legal requirements are met.
- A range of documentation was viewed by the inspector, including safeguarding policies and procedures and paediatric first-aid qualifications.

We carried out this inspection under sections 49 and 50 of the Childcare Act 2006 on the quality and standards of provision that is registered on the Early Years Register. The registered person must ensure that this provision complies with the statutory framework for children's learning, development and care, known as the early years foundation stage.
