

Compliance action taken for childcare provision

Ref: EY330257/4825567

Date: 6 August 2021

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2.

If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 28 June 2021 we received a notification from this provider about an incident that occurred at the setting relating to the supervision of children. The notification means that the provider met their legal responsibility as set out in the early years foundation stage to notify Ofsted of any significant event.

On 1 July 2021, we carried out a regulatory visit to look into the matters regarding this notification. We found the provider was not meeting some of the requirements and had taken action to put this right. During the visit we found the provider had taken prompt and appropriate steps to ensure the premises are safe and children are appropriately supervised at all times. We were satisfied with the actions taken by the provider to rectify the breaches of the welfare requirements and therefore it was not necessary for Ofsted to take any further action in relation to this matter.

At this visit, we also checked whether the provider had met the safeguarding and welfare actions raised at their last inspection. The provider responded to the actions that had been set at the inspection. We found that the provider had ensured staff deployment is effective to supervise children appropriately. They put effective supervision arrangements in place to help support staff and improve their practice. The provider also ensured that all staff improved their knowledge and understanding of the nursery's policies and procedures, especially if they have a concern about a member of staff, including leaders. They now fully understand their responsibilities. We are satisfied the provider has met the safeguarding and welfare actions raised.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services

we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
