

Compliance action taken for childcare provision

Ref: EY267210/4845451

Date: 23 September 2021

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at

www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 20 July 2021, we received a notification from the provider about safety concerns within the setting. The notification means that the provider met their legal responsibility as set out in the early years foundation stage welfare requirements: to notify Ofsted of any significant event which is likely to affect the suitability of the early years provider or any person who cares for, or is in regular contact with, children on the premises to look after children.

On 20 September 2021, we carried out a regulatory telephone call to discuss the notification and reviewed documentary information that was sent to us. We found that the provider had not met some of the requirements but had taken action to put this right. Staff now understand their roles and responsibilities regarding the supervision of children and meeting their dietary needs. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
