

## **Compliance action taken for childcare provision**

Ref: 206251/4818073

Date: 28 October 2021

### **Summary of outcome**

All early years providers must meet the legal requirements in the [Statutory framework for the early years foundation stage](https://www.gov.uk/government/publications/early-years-foundation-stage-framework--2), which you can find at [www.gov.uk/government/publications/early-years-foundation-stage-framework--2](https://www.gov.uk/government/publications/early-years-foundation-stage-framework--2). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 21 June 2021, we received concerns that the provider was not meeting some of these requirements. On 14 October 2021 we carried out a regulatory visit. We found the provider was not meeting some of the requirements. We have issued actions for the provider to take within the timescales set out. The provider will be able to give parents further information about this.

Action needed by 26 October 2021:

ensure staff have a clear understanding of their role and responsibility within the nursery and carry out their roles effectively

ensure all staff have a secure knowledge and understanding of the signs that might indicate children are at risk of harm

make sure required documentation is easily accessible and available, with particular regard to paediatric first aid certificates

ensure at least one member of staff who has a current paediatric first aid certificate is present on the premises

On 24 October and 8 November 2021, the provider responded to the actions set. We found that the provider ensures that staff are clear about their role and responsibilities within the nursery. Staff are provided with training, supervision sessions and are closely monitored by the provider. Furthermore, staff are secure in their knowledge and understanding of the signs that might indicate children are at risk of harm. They have completed training and are provided with current safeguarding information. Additionally, the provider has reorganised the way information and documentation are stored and accessible to view. The provider also makes sure that at least one member of staff is present in the nursery who holds a current paediatric first aid qualification. If children are taken out on outings, the provider ensures that there are a sufficient number of staff in place to meet this requirement on and off the premises.

We are satisfied the provider has met the safeguarding and welfare actions raised. The provider is still registered with Ofsted.

### **Publication of compliance action**

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at [www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted](https://www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted).
