

Compliance action taken for childcare provision

Ref: EY543517/4915399

Date: 16 November 2021

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 6 October 2021, the provider notified Ofsted of a safeguarding incident. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of a significant event. On 11 November 2021, we carried out a regulatory telephone call with the manager of the setting. We found that staff had acted swiftly and followed appropriate procedures to keep children safe. Since the incident, the provider has taken action to minimise any further risks to children.

During the regulatory telephone call, we found that the provider had failed to notify Ofsted of a change of manager, which is a requirement of their registration. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
