

# Inspection of Hugh Gaitskell Primary School

St Anthony's Drive, Beeston, Leeds, West Yorkshire, LS11 8AB

Inspection dates: 19 and 20 October 2021

Overall effectiveness	Good	
The quality of education	Good	
Behaviour and attitudes	Good	
Personal development	Good	
Leadership and management	Good	
Early years provision	Good	
Previous inspection grade	Good	

## What is it like to attend this school?

Hugh Gaitskell Primary School is a caring and friendly school. Pupils who attend come from a range of diverse backgrounds. This diversity is celebrated and valued by pupils and staff. There is a strong sense of community. Pupils learn about what makes them different. They understand that any form of discrimination is wrong. Pupils look after each other. They play well together at social times and behave well in the classroom.

Pupils feel safe in school and say that adults help them with their learning. Pupils who have any worries get support from the school's counsellors. Bullying in any form is not tolerated. On the rare occasion that it does happen, staff deal with it well.

Leaders encourage pupils to talk about their learning and debate current affairs. Leaders have created links with the University of Leeds to raise pupils' aspirations for their future. Pupils understand that if they work hard in school, they will be able to decide what they want to do when they are older. Inspectors spoke with pupils who aspire to be actors, authors, bankers and pathologists when they have completed their education.

# What does the school do well and what does it need to do better?

The proportion of pupils who join and leave during the school year is much higher than the national average. Leaders manage this well. Teachers quickly check to see if pupils who are new to school have gaps in their knowledge and support them if they need to catch up.

Pupils make a strong start to the school in the early years. Teachers prioritise the development of children's communication and language skills. Children learn rhymes and poems. They can retell stories that adults read to them. Children learn with curiosity, energy and enthusiasm. Teachers use a wide range of different resources that help children to remember what they are being taught.

Leaders give the teaching of reading a high priority. They have recently introduced a new curriculum for the teaching of early reading. A local English hub school has provided training for staff to help them to teach reading well. Teachers introduce new sounds clearly and give pupils books to read that match the sounds that they know. This helps pupils learn to read fluently. Pupils who need help to catch up in reading, including those with special educational needs and/or disabilities (SEND), receive effective support from well-trained staff. This is successful in helping these pupils to catch up quickly.

Leaders have reviewed the curriculum for all subjects. They have made sure that the full national curriculum is covered within subjects, such as history, mathematics, science and languages. Teachers explain new content clearly and check that pupils have remembered what they need to know.

In mathematics, staff have received training, so that they have the subject knowledge they need to teach mathematics well. Teachers encourage children to explain their mathematical thinking and draw links with what they already know. These strategies help pupils to remember the content they are being taught.

Pupils with SEND receive effective support from skilled adults. The school's special educational needs coordinator (SENCo) creates detailed support plans. These help staff understand the barriers to learning a pupil may have and what strategies they can use to help these pupils with their learning. Recently, there has been an increase in the number of pupils with SEND who have joined the school. Leaders have employed additional staff to support these pupils and planned training to help new staff meet their needs.

Pupils behave well. They understand the school rules and follow them closely. This leads to most classrooms being calm and orderly. Staff use effective strategies to support pupils with social, emotional and mental health needs, so that they can manage their own behaviour. Staff encourage pupils to attend school regularly. As a result, rates of persistent absence have fallen.

Pupils have a good understanding of people from different faiths and backgrounds. Leaders have established an effective approach to developing communication skills, which enables pupils to speak maturely about difficult issues, such as racism. Although paused because of the COVID-19 pandemic, leaders provide pupils with a wide range of after-school clubs to develop their interests. These will begin again in the next half term.

Together, governors and school leaders provide strong leadership. They have successfully strengthened the curriculum and established a welcoming and inclusive learning environment. Subject leaders' efforts to check the quality of education across the school have been hampered by the COVID-19 pandemic. They have spoken to pupils and looked at their work. Some subject leaders have not visited lessons and so have not identified the small number of teachers who are not implementing the curriculum in some subjects as well as they could. Leaders have plans in place to address this in the coming term now that restrictions have begun to lift.

All staff spoken to and most of those who responded to Ofsted's online questionnaire for staff said they are proud to work in the school. Most feel that leaders are considerate of their workload and are supportive of their well-being.

# **Safeguarding**

The arrangements for safeguarding are effective.

Leaders responsible for safeguarding are well trained and knowledgeable. They have established robust procedures for managing concerns about pupils' safety. Staff are also well trained and use these systems well. Recent training has raised their awareness about child criminal exploitation. When leaders are made aware of

concerns about a pupil, they respond appropriately. Leaders keep detailed records of the actions taken to support pupils at risk.

Pupils are taught about some of the risks they may face. They speak knowledgably about the actions that they take to use the internet safely. They also recognise some of the risks to their safety in the community and know how they would manage these, should they encounter them.

# What does the school need to do to improve?

### (Information for the school and appropriate authority)

■ Some subject leaders have not visited lessons to make sure the curriculum for their subject is being well implemented. As a result, they have not identified that a small number of staff require additional training in order to teach the curriculum well. Leaders should check that the curriculum for all subjects is implemented well and that pupils are remembering the essential subject knowledge on the school's curriculum.

# How can I feed back my views?

You can use Ofsted Parent View to give Ofsted your opinion on your child's school, or to find out what other parents and carers think. We use information from Ofsted Parent View when deciding which schools to inspect, when to inspect them and as part of their inspection.

The Department for Education has further guidance on how to complain about a school.

If you are the school and you are not happy with the inspection or the report, you can complain to Ofsted.

#### **Further information**

You can search for published performance information about the school.

In the report, 'disadvantaged pupils' refers to those pupils who attract government pupil premium funding: pupils claiming free school meals at any point in the last six years and pupils in care or who left care through adoption or another formal route.

### **School details**

**Unique reference number** 107959

**Local authority** Leeds

**Inspection number** 10199776

**Type of school** Primary

**School category** Foundation

Age range of pupils 3 to 11

Gender of pupils Mixed

**Number of pupils on the school roll** 571

**Appropriate authority** The governing body

**Chair of governing body** Dr Melvin Blackband

**Headteacher** Kate McNulty

**Website** www.hughgaitskell.leeds.sch.uk

**Date of previous inspection** 18 – 19 May 2016, under section 5 of

the Education Act 2005

#### Information about this school

■ The proportion of pupils eligible for the pupil premium is above the national average.

■ The proportion of pupils with special educational needs and/or disabilities is above the national average.

- The proportion of pupils who speak English as an additional language is almost three times the national average.
- There are high levels of pupil movement to and from the school.

# Information about this inspection

The inspectors carried out this inspection under section 5 of the Education Act 2005.

- This was the first routine inspection the school received since the COVID-19 pandemic began. Inspectors discussed the impact of the pandemic with school leaders and have taken that into account in their evaluation.
- Inspectors met with the headteacher and members of the senior leadership team.

- An inspector met with the school's SENCo coordinator and reviewed support plans and education, health and care plans.
- An inspector met with the school's early years leader.
- Inspectors met with members of the school's governing body
- Inspectors undertook deep dives in reading, mathematics, science, languages and history. For each deep dive, inspectors met with subject leaders, looked at curriculum plans, visited a sample of lessons, spoke to teachers, spoke to some pupils about their learning and looked at samples of pupils' work.
- Inspectors also looked at curriculum plans and spoke to pupils about their learning in some other subjects.
- Inspectors spoke to parents informally on the playground at the start of the school day.
- Inspectors considered 16 responses to Ofsted's online questionnaire, Parent View, including nine free-text parent comments. Inspectors also reviewed the 26 responses to Ofsted's online questionnaire for staff.

#### **Inspection team**

Tim Scarqill-Knight, lead inspector Her Majesty's Inspector

Andrea Batley Her Majesty's Inspector

Dawn Foster Ofsted Inspector

Gill Holland Ofsted Inspector

Richard Crane Ofsted Inspector

The Office for Standards in Education, Children's Services and Skills (Ofsted) regulates and inspects to achieve excellence in the care of children and young people, and in education and skills for learners of all ages. It regulates and inspects childcare and children's social care, and inspects the Children and Family Court Advisory and Support Service (Cafcass), schools, colleges, initial teacher training, further education and skills, adult and community learning, and education and training in prisons and other secure establishments. It assesses council children's services, and inspects services for children looked after, safeguarding and child protection.
