

Compliance action taken for childcare provision

Ref: EY342823/4902413

Date: 18 November 2021

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 22 September 2021, the provider notified us that a child was able to leave an outdoor play area unsupervised. The notification means that the provider met their legal responsibility, as set out in the 'Statutory framework for the early years foundation stage', to notify Ofsted of any significant change or event. The provider took effective steps to improve the security of one of the outdoor play areas by having closed feather board fencing erected along the driveway perimeter. The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
