

Hope House School

Barnby Road, Balderton, Newark, Nottinghamshire, Nottinghamshire NG24 3NE

Inspection date

10 November 2021

Overall outcome

The school does not meet all of the independent school standards that were checked during this inspection

Main inspection findings

Part 3. Welfare, health and safety of pupils

Paragraphs 7, 7(a), 7(b), 11, 12, 16, 16(a), 16(b)

- At the previous inspection, arrangements to safeguard pupils and promote their welfare were not effective. Staff had not had training in how to use the school's online system to record concerns. The school's new health-and-safety policy had not been approved by trustees. Issues related to fire safety identified previously had not been resolved. Staff had not been trained to complete accurate risk assessments.
- Leaders have had relevant and up-to-date safeguarding training. They have reviewed the safeguarding policy recently to ensure that it reflects the latest national guidance. This policy has been read by staff, so that they understand their responsibilities regarding safeguarding. The safeguarding policy is available on the school's website.
- Staff have completed training recently, including in relation to online safety and peer-on-peer abuse. They know how to spot the signs that a pupil may be at risk. Staff who are new to the school receive safeguarding training as part of their induction programme. The proprietor has made its expectations for professional conduct clear in a new booklet that is given to all staff.
- The system for recording safeguarding incidents is now well established. Staff know how to use this online system to report concerns about pupils.
- Pupils' safeguarding records are detailed and show that leaders take timely action to support pupils. Leaders work effectively with local safeguarding partners to secure additional support for pupils.
- Pupils are positive about the school and feel safe. They say that they have an adult they can talk to if they are anxious about something.
- Leaders have carried out appropriate safeguarding checks of an alternative provider that some pupils have recently started to attend each week.
- Permanently employed staff are trained to intervene safely if a pupil needs to be restrained physically. However, leaders do not ensure that staff always record the

information necessary following an incident. Some records do not report the de-escalation techniques used or the views of pupils involved.

- The daily report home for each pupil does not always inform parents and carers about any incidents involving their children that are a cause for concern, including safeguarding incidents. This is contrary to the school's policy.
- Staff know how to report a concern they might have about the behaviour of an adult that might put a pupil at risk of harm. However, leaders do not always raise these concerns with the appropriate authorities as quickly as they should.
- Leaders have appointed an external company to support and advise in writing effective health and safety policies. These policies are still in the process of being completed. They have not been agreed by trustees. Draft policies do not include procedures to ensure that water is of an appropriate quality and temperature.
- A new maintenance book is used by staff to log any health and safety issues. Leaders check this book daily and record their actions to resolve the issues identified.
- Leaders have ensured that suitable fire safety arrangements are in place. They have responded appropriately to each action required following the most recent fire risk assessment. Fire extinguishers are attached securely to the walls in each building and are available for use in the event of a fire. School maintenance staff complete regular checks of fire warning systems and fire detection equipment to ensure that there are no issues.
- Leaders have not ensured that there is a comprehensive and up-to-date risk assessment policy that reflects the current setting. The risk assessment policy on the school's website is out of date. A new draft policy considers the school's site but does not include procedures for risk assessments for pupils. A separate policy outlines arrangements for educational visits and trips. As a result of these multiple policies, leaders' arrangements for managing risk are confused.
- Staff have had training in writing and interpreting risk assessments for individual pupils. These risk assessments are detailed. However, pupils' risk assessments are not reviewed routinely in response to incidents of concern, to ensure that the strategies to support pupils are still appropriate. This puts the welfare and safety of pupils at risk.
- The school does not meet the requirements of all the independent school standards in this part.

Part 5. Premises of and accommodation at schools

Paragraph 28(1), 28(1)(d)

- The temperature of hot water in washing facilities is not regulated. Leaders have not taken swift action to rectify this issue, even though they have known about the problem for some time. They do not check the temperature of the hot water often enough to make sure that it does not pose a scalding risk to users. Leaders have not implemented a suitable risk assessment to reduce the likelihood of pupils being harmed.
- The school does not meet the requirements of all the independent school standards in this part.

Part 6. Provision of information

Paragraph 32(1), 32(1)(h)

- At the previous inspection, the proprietor had not ensured that leaders provided local authorities with annual reports to show how funding provided by these authorities for each pupil placed at the school was being used. Leaders now keep detailed records of how much money they receive for individual pupil and how they spend it. Leaders provide this information to relevant local authorities each year.
- The school meets the requirements of all the independent school standards in this part.

Part 8. Quality of leadership in and management of schools

Paragraph 34(1), 34(1)(a), 34(1)(b), 34(1)(c)

- At the previous inspection, the proprietor had not ensured that the independent school standards were met in full.
- The proprietor has not taken sufficient action to ensure that the school meets all the independent school standards that were judged as not met at the previous inspection. Standards relating to pupils' welfare, health and safety remain unmet. The inspector has identified standards relating to the premises that are no longer met.
- The proprietor has taken steps to improve the school, including the appointment of an interim headteacher. Staff are positive about the changes that have taken place under this new leadership. However, many actions are still in progress or have not had time to be implemented effectively.
- The school does not meet the requirements of all the independent school standards in this part.

Compliance with regulatory requirements

The school does not meet the requirements of the schedule to The Education (Independent School Standards) Regulations 2014 ('the independent school standards') and associated requirements that were checked during this inspection, as set out in the annex of this report. This included the standards and requirements that the school was judged to not comply with at the previous inspection. Not all of the standards and associated requirements were checked during this inspection.

Annex. Compliance with regulatory requirements

The school does not meet the following independent school standards

Standards that were not met at the previous inspection and remain un-met at this inspection

Part 3. Welfare, health and safety of pupils

- 7 The standard in this paragraph is met if the proprietor ensures that–
 - 7(a) arrangements are made to safeguard and promote the welfare of pupils at the school; and
 - 7(b) such arrangements have regard to any guidance issued by the Secretary of State.
- 11 The standard in this paragraph is met if the proprietor ensures that relevant health and safety laws are complied with by the drawing up and effective implementation of a written health and safety policy.
- 16 The standard in this paragraph is met if the proprietor ensures that–
 - 16(a) the welfare of pupils at the school is safeguarded and promoted by the drawing up and effective implementation of a written risk assessment policy; and
 - 16(b) appropriate action is taken to reduce risks that are identified.

Part 8. Quality of leadership in and management of schools

- 34(1) The standard about the quality of leadership and management is met if the proprietor ensures that persons with leadership and management responsibilities at the school–
 - 34(1)(a) demonstrate good skills and knowledge appropriate to their role so that the independent school standards are met consistently;
 - 34(1)(b) fulfil their responsibilities effectively so that the independent school standards are met consistently; and
 - 34(1)(c) actively promote the well-being of pupils.

Standards that were met at the previous inspection, but are now judged to not be met at this inspection

Part 5. Premises of and accommodation at schools

- 28(1) The standard in this paragraph is met if the proprietor ensures that–
 - 28(1)(d) the temperature of hot water at the point of use does not pose a scalding risk to users.

The school now meets the following requirements of the independent school standards

Part 3. Welfare, health and safety of pupils

- 12 The standard in this paragraph is met if the proprietor ensures compliance with the Regulatory Reform (Fire Safety) Order 2005.

Part 6. Provision of information

- 32(1) The standard about the provision of information by the school is met if the proprietor ensures that–
 - 32(1)(h) where a pupil wholly or partly funded by a local authority (except where funding is solely for free of charge early years provision in accordance with the duty contained in section 7 of the Childcare Act 2006) is registered at the school, an annual account of income received and expenditure incurred by the school in respect of that pupil is provided to the local authority and, on request, to the Secretary of State.
