

Compliance action taken for childcare provision

Ref: EY305294/4972163

Date: 24 December 2021

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 18 November 2021, we carried out an inspection and found the provider was not meeting some of these requirements. The overall effectiveness of the provision was judged to be inadequate. The inspection report sets out the actions the provider was required to take to meet the requirements.

On 8 December 2021, we carried out a regulatory visit. The focus of the visit was to check whether the provider had met the safeguarding and welfare actions raised at their last inspection. We found that the provider had not met all of the actions. We therefore served another welfare requirements notice. This is a legal notice that requires the provider to take the actions below within the timescales set out. The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Actions needed by 21 December 2021:

- ensure the safeguarding policy and procedures is fully implemented and understood by all staff
- ensure all staff are trained so that they have a secure and up-to-date knowledge of safeguarding issues, and understand how to appropriately respond to any safeguarding concerns
- take reasonable steps to ensure the safety of children, staff and others on the premises in the case of fire or any other emergency and ensure that fire doors are free of obstruction and easily opened from the inside
- take all reasonable steps to ensure staff and children are not exposed to risks and demonstrate how these risks are being managed
- comply with the requirements of health and safety legislation with particular regard to infection control
- ensure that the following information is available to parents and carers: staffing in the

setting; the name of their child's key person and their role; how the EYFS is being delivered in the setting, and how parents and/or carers can access more information; the range and type of activities and experiences provided for children, the daily routines of the setting, and how parents and carers can share learning at home.

We will monitor the provider's response to ensure the actions are successfully completed.

On 22 December 2021, we carried out a regulatory visit. The focus of the visit was to check whether the provider had met the safeguarding and welfare actions raised at their last inspection and regulatory visit. We found that the provider had improved their knowledge and now understands their responsibilities.

We are satisfied the provider has met the safeguarding and welfare actions raised. The provider is still registered with Ofsted.
