

Compliance action taken for childcare provision

Ref: EY295475/4943806

Date: 19 January 2022

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 16 July 2021, the provider notified us that an allegation of harm to a child had been made against a staff member. The notification means that the provider met their legal responsibility as set out in the 'Statutory framework for the early years foundation stage' to notify Ofsted of a significant event. However, the provider failed to make the notification within the required 14 day timescale.

We are satisfied that the provider is aware of the requirements to notify Ofsted of a significant event within the 14 day timescale. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
