

Compliance action taken for childcare provision

Ref: 2550202/5061364

Date: 18 February 2022

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 9 February 2022, the provider notified us that their policies and procedures had not been followed which led to a young child being left unsupervised, for a short time, in the outdoor area. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of a significant event which is likely to affect the suitability of the early years provider.

On 16 February 2022, we carried out a regulatory telephone call. We found that the provider was not meeting some of the requirements and had taken action to put this right. For example, senior staff now oversee when staff and children return indoors. Staff have been re-issued with policies and procedures and further training has been identified. The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
