

Compliance action taken for childcare provision

Ref: 400147/5085869

Date: 22 February 2022

Summary of outcome

On 3 February 2022, the provider notified us that a child had sustained a serious injury while at the setting. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted or the childminder agency with which they are registered of any serious accident, illness or injury to, or death of, any child while in their care, and of the action taken.

We liaised with the Local Authority Designated Officer and on 22 February 2022 we carried out a regulatory telephone call. We found that the provider has taken steps to prevent a similar injury occurring again in future. For example, the manual handling procedure has been reviewed and staff reminded of that. Some staff have re-done a manual handling training course and all other staff will be asked to re-do the course in the near future. We are satisfied with the action taken by the provider and they are still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
