

## **Compliance action taken for childcare provision**

Ref: EY488983/4992033

Date: 4 March 2022

### **Summary of outcome**

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at [www.gov.uk/government/publications/early-years-foundation-stage-framework--2](http://www.gov.uk/government/publications/early-years-foundation-stage-framework--2). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 20 January 2022, we carried out an inspection and found the provider was not meeting some of these requirements.

The report and inspection outcome will be published in due course. Following the inspection we served a welfare requirements notice on 25 January 2022. This is a legal notice that requires the provider to take the actions below within the timescales set out. The provider will be able to give parents further information about this.

Actions needed by 11 February 2022:

- ensure all staff receive effective and specific support and training to develop their professional skills so that all children consistently receive good learning and development experiences
- deploy staff effectively to supervise children to keep them safe and engaged in learning, in particular, babies and younger children
- ensure all staff understand and follow the health and hygiene procedures of the setting, and ensure there are suitable hygienic changing facilities for any children who are in nappies
- complete and implement effective risk assessments to identify potential safety hazards, and take prompt action to remove or minimise any risks to keep children safe
- improve knowledge and understanding of changes that must be notified to Ofsted.

On 23 February 2022, we carried out a regulatory visit. The focus of the visit was to check whether the provider had met the safeguarding and welfare actions raised at their last inspection. We found that the provider had improved their knowledge and understanding of changes that must be notified to Ofsted. The provider had ensured that staff now receive effective and specific support and training to develop their professional skills. The management team ensure that staff are deployed effectively and supervise children to keep them safe and engage in learning. All staff understand and follow the health and hygiene procedures of the setting. The provider had supplied the setting with suitable hygienic changing facilities. The provider had improved their risk assessments to identify potential risks, and had implemented effective measures to remove or minimise them.

We are satisfied the provider has met the safeguarding and welfare actions raised. The provider is still registered with Ofsted

### **Publication of compliance action**

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at [www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted](https://www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted).
