

Compliance action taken for childcare provision

Ref: EY276610/5060183

Date: 23 March 2022

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 27 January 2022, we carried out an inspection and found the provider was not meeting some of these requirements.

The overall effectiveness of the provision was judged to be not met with enforcement. The inspection report sets out the actions the provider was required to take to meet the requirements.

On 16 February 2022, we carried out a regulatory visit. The focus of the visit was to check whether the provider had met the safeguarding and welfare actions, raised at their last inspection.

We found that the provider had improved their knowledge and understanding of effective risk assessments. These are regularly reviewed to minimise risks to children. The play areas used by the club has been reappraised to enable staff to provide supervision both inside and outside. At least one person with a paediatric first aid is present throughout each session. Required records for the safe and effective management of the setting have been updated and are kept securely. Effective recruitment and induction procedures are in place. Information about the key person system is shared with parents/carers. Links with other providers has been improved to ensure that information is recorded and shared to support children's care and learning.

We are satisfied the provider has met the safeguarding and welfare actions raised. The provider is still registered with Ofsted.
