

Compliance action taken for childcare provision

Ref: 123546/5123274

Date: 26 April 2022

Summary of outcome

All early years providers must meet the legal requirements in the [Statutory framework for the early years foundation stage](#). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 28 March 2022, the provider notified us of an incident on the premises. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of significant events. On 22 April 2022, we carried out a regulatory telephone call to discuss the incident in detail. We found the provider had failed to notify us in the required timescale. We discussed the matter with the provider and are satisfied that they have improved their knowledge and fully understand their responsibility to notify Ofsted. The provider will be able to give parents further information. The provider is still registered.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
