

Compliance action taken for childcare provision

Ref: EY356757/5166319

Date: 6 June 2022

Summary of outcome

On 24 May 2022, we carried out a regulatory telephone call. We found the provider was not meeting some of the requirements. We have served a welfare requirements notice. This is a legal notice that requires the provider to take the actions below within the timescales set out. The provider will be able to give parents further information about this.

Actions needed by 13 June 2022:

- put in place effective risk assessments and take swift action to minimise or remove hazards so that children are not exposed to unnecessary risks; including access to and safety around animals.

On 23 June 2022, we carried out an unannounced visit to monitor the provider's response to the actions raised. We found that the provider had reviewed the arrangements for risk assessment and taken appropriate action to ensure animals do not pose a risk to children.

We are satisfied the provider has met the safeguarding and welfare actions raised. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
