

Compliance action taken for childcare provision

Ref: 2537413/5160343

Date: 14 June 2022

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2.

If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 11 May 2022, we carried out an inspection and found the provider was not meeting some of these requirements.

Following the inspection we served a welfare requirements notice on 19 May 2022. This is a legal notice that requires the provider to take the actions below within the timescales set out. The provider will be able to give parents further information about this.

Actions needed by 25 May 2022:

- ensure that the person designated to take lead responsibility for safeguarding makes timely referrals and shares concerns to relevant agencies without delay
- ensure all staff, including all leaders, receive effective training to understand the safeguarding policy and procedure, with particular regard to escalating concerns outside of the setting and/or whistleblowing
- implement robust systems to record all current and emerging child protection concerns in line with local safeguarding partnership guidance.

On 26 May 2022, we carried out a regulatory visit. The focus of the visit was to check whether the provider had met the safeguarding and welfare actions raised at their last inspection. We found that the provider fully understands their responsibilities and had taken sufficient steps to improve leaders and staff safeguarding knowledge, and child protection and safeguarding practice within the setting.

We are satisfied the provider has met the safeguarding and welfare actions raised. The provider is still registered with Ofsted.
