Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 12 & 25 May and 21 June 2022 the provider notified Ofsted of three significant events that had occurred at the setting. These notifications mean that the provider met their legal responsibility as set out in the Statutory framework of the early years foundation stage to notify Ofsted of significant events and changes.

On 14 July 2022, we carried out a regulatory visit to look into these concerns. We found that the provider had taken appropriate action to refer matters to the relevant safeguarding agency regarding the suitability of staff working at the nursery. We also found that the provider had appropriate steps to address weaknesses around how staff supervise children to keep them safe.

Furthermore, we found that the provider had identified significant weaknesses in leadership and management and therefore had implemented changes to ensure the safe and efficient running of the nursery.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to

bring about compliance with requirements on our website for a period of five years.
