

## **Compliance action taken for childcare provision**

Ref: 309826/5216994

Date: 10 August 2022

### **Summary of outcome**

All early years providers must meet the legal requirements in the [Statutory framework for the early years foundation stage](#). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 27 July we received concerns that the provider was not meeting some of these requirements.

On 29 July we carried out a regulatory visit to the setting. We found the provider was not meeting some of the requirements and had taken action to put this right. The provider has put into place refresher training for staff with regards to implementing the settings revised medication policy.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

### **Publication of compliance action**

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
