

Complaint about childcare provision

Ref: 2689712/5228691

Date: 12 August 2022

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 9 August 2022, we received concerns that the provider was not meeting some of these requirements.

On 10 August 2022, we carried out a regulatory telephone call. We found the provider was not meeting some of the requirements and had taken action to put this right. The provider has carefully considered the space and resources available to children and made improvements to how effectively staff support and develop children's safe play. A review and improved implementation of the risk assessment policy has increased staff's understanding of their roles and responsibilities to promote safety and supervise children effectively. Improvements have also been made to the staff induction process to include how to prevent, manage and respond effectively to significant events.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of complaints

We publish details of complaints made against childminders, home childcarers and childcare providers where we or the provider have taken action in order to meet legal requirements.

We publish details of complaints on our website for a period of five years.

For further information about the complaints process please view the [Concerns and complaints about childminders and childcare providers leaflet](#).
