

Compliance action taken for childcare provision

Ref: EY303828/5235530

Date: 30 August 2022

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 23 August 2022, we completed a regulatory visit following concerns that this provider was not meeting some of these requirements. We found that there were weaknesses in safeguarding practice and leadership and management. We have served a welfare requirements notice. This is a legal notice that requires the provider to take the actions below within the timescales set out. The provider will be able to give parents further information about this.

We asked the provider to:

improve safeguarding practices, particularly in relation to recording and reporting concerns about children's welfare

ensure there is a manager or named deputy in place to oversee the day to day running of the nursery and to implement the leadership and management requirements at the setting

ensure those who prepare and handle food are trained to do so.

The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
