

## **Compliance action taken for childcare provision**

Ref: 2617889/5203225

Date: 26 July 2022

### **Summary of outcome**

Date: 18 July 2022

Our reference: 5203225/2617889

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 07 July 2022, the provider notified Ofsted of a significant event that occurred at the setting. The notification means that the provider met their legal responsibility as set out in the Statutory framework of the early years foundation stage to notify Ofsted of significant events and changes.

On 8 July 2022, we contacted the provider to look into these concerns. We also conducted a visit on 16 September 2022. We found that the provider had revised their existing risk assessment and improved the deployment of staff in order to ensure that all children are supervised well and accounted for, at all times.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

## **Publication of compliance action**

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at [www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted](http://www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted).
