Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 8 June 2022, the provider notified us of a significant event that occurred at the nursery. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of significant events and changes.

On 13 September 2022, we carried out a regulatory telephone call to look into these concerns. We found that the provider had taken steps to improve induction processes to ensure that newly recruited staff fully understand the nursery's safeguarding policy and procedures. We also found that the provider had strengthened arrangements for the ongoing supervision and training of staff to help ensure that all staff understand their roles and responsibilities.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
