### **Summary of outcome**

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 16 June, the provider notified us of a significant event that occurred at the setting. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of significant events and changes.

On 5 and 20 September, we carried out a regulatory telephone call to look into these concerns. We found out that the provider had taken steps to improve staff's knowledge and understanding of the nursery's safeguarding procedures in order to supervise children well and keep them safe.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted

### **Publication of compliance action**

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
