

## **Compliance action taken for childcare provision**

Ref: EY540248/5017896

Date: 14 April 2022

### **Summary of outcome**

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at [www.gov.uk/government/publications/early-years-foundation-stage-framework--2](http://www.gov.uk/government/publications/early-years-foundation-stage-framework--2). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 12 July 2021, we carried out an inspection and found that the provider was not meeting some of these requirements. The overall effectiveness of the provision was judged to be inadequate. The inspection report sets out the actions the provider was asked to take to meet the requirements.

On 6 January 2022, we carried out an inspection and found that the provider was still not meeting some of these requirements. The overall effectiveness of the provision was judged to be inadequate, and we served a welfare requirements notice. The inspection report sets out the actions the provider was asked to take to meet the requirements.

On 24 January 2022, we carried out a visit to monitor the welfare requirements notice served at the last inspection. We found that the provider had complied with part of this notice. However, the provider was still not meeting some of the requirements. The provider will be able to give parents further information about this.

On 22 February 2022, we took steps to cancel the provider's registration. The provider objected to us taking this step. Having heard the provider's reasons for objecting to this step, Ofsted has decided to proceed with cancellation. The provider has the right to appeal against our decision to an independent organisation, the First Tier Tribunal (Health, Education and Social Care Chamber).

On 8 June 2022, we carried out an inspection and found that the provider was still not meeting some of these requirements. The overall effectiveness of the provision was judged to be inadequate, and we served a welfare requirements notice. The inspection report sets out the actions the provider was asked to take to meet the requirements.

On 8 August, we carried out a visit to monitor the welfare requirements notice served at the last inspection. While the provider was able to tell us about the action she has taken, we were not able to see that in practice as there were no children present at the visit. We will monitor this further at the provider's next inspection. The provider will be able to give

parents further information about this.

On 18 and 19 October 2022, the provider appealed to an independent external tribunal, the Health, Education and Social Care First-tier Tribunal and it did not uphold the appeal. The provider's registration is therefore cancelled.
