

Compliance action taken for childcare provision

Ref: 512425/5354770

Date: 20 February 2023

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 20 January 2023 the provider notified us that there had been an incident where a child left the premises unsupervised as another parent and child left the building. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of a significant event.

On 7 February 2023, we carried out a regulatory telephone call. The focus of the call was to check whether the provider had taken action to put this right. We are told that more robust procedures have been introduced to ensure children's safety. These include procedures for monitoring children and parents on collection and how staff are deployed to ensure children are effectively supervised. These updated procedures have been shared with staff to ensure they understand their roles and responsibilities to keep children safe. The provider has given parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
