

Compliance action taken for childcare provision

Ref: 2533429/5367611

Date: 17 February 2023

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 3 February 2023, the provider notified us that a child sustained a serious injury following an accident at the nursery. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of a serious accident or injury to child while in their care.

On 10 February 2023 we carried out a regulatory telephone call. We found the provider was not meeting some of the requirements. We have issued an action for the provider to take.

Action needed by 11 February 2023:

- ensure local child protection agencies are notified of any serious accident or injury to any child while in the care of the nursery.

The provider will be able to give parents further information about this.

We received an appropriate response from the provider to the action. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be
