

Compliance action taken for childcare provision

Ref: 129017/5409285

Date: 26 May 2023

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 30 March 2023, we carried out an inspection and found the provider was not meeting some of these requirements.

The report and inspection outcome will be published in due course. Following the inspection we served a welfare requirements notice on 12 April 2023. This is a legal notice that requires the provider to take the actions below within the timescales set out. The provider will be able to give parents further information about this.

Actions needed by 14 April 2023:

- implement effective supervision for staff to help develop their practice and promote the interest of children
- ensure all staff receive training that is effective in helping them to understand their roles and responsibilities, with particular regard to the implementation of policies to ensure the good health and welfare of children
- ensure that the premises are safe for children especially in case if there is an emergency such as a fire
- ensure that no unauthorised person can enter into the premises
- ensure staff have a secure understanding about risk assessment and can identify potential safety hazards, and take prompt actions to remove or minimise any risks to safeguard children's well-being

On 17 April 2023, we carried out a regulatory visit. The focus of the visit was to check whether the provider had met the safeguarding and welfare actions raised at their last inspection.

We found that the provider had taken appropriate steps to ensure that the premises where childcare takes place are safe and secure. They have improved their knowledge and

understanding of risk assessments and implemented procedures so that supervision sessions help staff fully understand their responsibilities.

We are satisfied the provider has met the safeguarding and welfare actions raised. The provider is still registered with Ofsted.
