

Compliance action taken for childcare provision

Ref: EY477579/5436029

Date: 30 June 2023

Summary of outcome

On 24 May 2023, we carried out an inspection and found the provider was not meeting some of the requirements.

The overall effectiveness of the provision was judged to be inadequate. The inspection report sets out the actions the provider was required to take to meet the requirements.

On 21 June 2023, we carried out monitoring visit to check whether the provider had taken steps to meet the actions, raised at their last inspection.

We found that the provider has taken action to put this right. They have strengthened the procedures for safeguarding, provided coaching and mentoring of staff so that they understand how to implement the curriculum effectively, implemented a consistent behaviour management strategy and they have taken steps to ensure that staff supervise children effectively at all times.

The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
