

Compliance action taken for childcare provision

Ref: EY458613/5587699

Date: 4 December 2023

Summary of outcome

On 8 November 2023 the provider notified us of an incident that took place at the nursery, where a staff member did not follow the established sleep procedures.

The notification means that the provider met their legal responsibility as set out in the 'Statutory framework for the early years foundation stage' to notify Ofsted of any significant event which is likely to affect the suitability of any person who is in regular contact with children on the premises where childcare is provided.

We carried out a regulatory telephone call on 14 November 2023. We found that the provider had taken action to meet the requirements. For example they had provided all staff who work with babies with refresher training in the management of sleep routines, and improved the supervision of sleeping children.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
