

## **Compliance action taken for childcare provision**

Ref: EY432713/5598999

Date: 22 December 2023

### **Summary of outcome**

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at [www.gov.uk/government/publications/early-years-foundation-stage-framework--2](http://www.gov.uk/government/publications/early-years-foundation-stage-framework--2). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 22 November 2023, we carried out an inspection and found the provider was not meeting some of these requirements.

The overall effectiveness of the provision was judged to be inadequate. The inspection report sets out the actions the provider was required to take to meet the requirements.

On 11 December 2023, we carried out a monitoring visit. The focus of the visit was to check whether the provider had met the safeguarding and welfare actions raised at inspection.

We found that the provider had improved staff's knowledge of safeguarding, including 'Prevent' Duty guidance and female genital mutilation. The provider has reviewed the procedures for the managers supervision. They have made appropriate changes to ensure that staff support children's care needs, including ensuring that children can access drinking water throughout the day. The provider has reviewed the nursery environment and taken action to support children's behaviour. They have improved the strategies in place to support children with special educational needs and/or disabilities (SEND).

We are satisfied the provider has met the safeguarding and welfare actions raised.

The provider is still registered with Ofsted.
