

Compliance action taken for childcare provision

Ref: EY313604/5617962

Date: 22 December 2023

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 19 December 2023, the provider notified us regarding an incident whereby a child was briefly left unsupervised in a room within the nursery. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of any significant events.

On 21 December 2023, we carried out a regulatory telephone call. We found that the provider had taken appropriate action. This includes reviewing and updating the transition policy, to ensure that headcounts of children are repeated as they move from one room to another. Staff have been informed of these changes, and further training will be implemented to ensure that staff fully understand the policies and procedures regarding transition. We are satisfied with the action taken by the provider. The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
