

Compliance action taken for childcare provision

Ref: EY315708/5619196

Date: 11 January 2024

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 20 December 2023, the provider notified us of a child having an allergic reaction to food provided to them by the setting. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of any significant incidents.

On 10 January 2024, we carried out a regulatory visit. We found the provider was not meeting some of the requirements and had taken action to put this right. Since the incident the provider has strengthened their risk assessments and are now taking all reasonable steps to ensure that children in their care are not exposed to risks. For example, they have improved the control measures in place for checking and providing food to children with allergies. The provider will be able to give parents further information about this.

The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
