

Compliance action taken for childcare provision

Ref: EY412496/5687997

Date: 27 March 2024

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 19 March 2024, we received a notification from the provider regarding suitability checks for staff. On 27 March 2024, we carried a regulatory telephone call and found that the provider had not met one of the requirements in relation to ensuring that Ofsted has the required information to check staff's suitability. We have issued an action for the provider to take.

Action needed by 30 April 2024

- improve arrangements to ensure that Ofsted is provided with the information needed to check the suitability of staff and implement suitable ways to establish staff's ongoing suitability.

We will monitor the provider's response to ensure the action is successfully completed. The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
