

Compliance action taken for childcare provision

Ref: EY501813/5757311

Date: 19 June 2024

Summary of outcome

All early years providers must meet the legal requirements in the [Statutory framework for the early years foundation stage](#). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 14 June 2024, the provider notified us about a child sustaining an injury while at the setting. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of a significant event.

On 18 June 2024, we carried out a regulatory telephone call to the provider.

We found that the provider had taken prompt and effective action to re-train staff on the procedures for risk assessment and child supervision.

However, on the call we found that the provider had failed to notify Ofsted about a significant event, in that they had not notified Ofsted of a new director of the company. The provider took steps to address this immediately on the call. Ofsted are satisfied that on this occasion, this was an oversight. The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
