

Compliance action taken for childcare provision

Ref: 512423/5748450

Date: 1 July 2024

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 5 June and 20 June 2024, the provider notified us of two significant events that involved the supervision of children. The notifications mean that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of any significant events.

On 27 June 2024, we carried out a regulatory visit. We found the provider was not meeting some of the requirements and had taken action to put this right. In response to this the provider has implemented further risk assessments and shared these with the appropriate staff and parents. Policy and procedures have been reviewed for transitional periods within the setting. The high-level door handles have been replaced within the setting to ensure doors close adequately. The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
